Use 'Course Notifications' feature to customize email templates to receive notifications related to your course. You can trigger emails based on actions such as when a new student enroll in your course or a new payment occurs.

Go to course options and click on "Course Notification Settings",

-  Manage Enrolled Students
- Email Enrolled Students
- Email Prospective Students

 **Course Notification Settings**

You can enable/disable certain email triggers by clicking on the Yes/No slider button. Click "Edit email template" button to customize the email template.

Course Notification Settings

Instructor E-mail Notifications | **Student E-mail Notifications**

Notify me when a student enrolls in this course: YES NO [Edit email template](#)

Notify me when a new payment occurs: YES NO [Edit email template](#)

Notify me when someone writes a review: YES NO [Edit email template](#)

Notify me when a student finish the course: YES NO [Edit email template](#)
