Redirect your attendees to the specified URL after the classroom session ends.

The screenshot shows a web application interface with a sidebar on the left containing menu items: Rooms, Recordings, Hostname & SSL certificate, Landing Page, Theme & Branding, Redirect URL (highlighted), Disk Usage, and Email analytics. A notification banner at the top states: "Your Tutor Plus plan allows 5 rooms. [Change Plan]". The main content area is titled "Redirect URL" and contains a form with a "Select Room" dropdown menu set to "Demo for test" and a text input field containing "https:// www.braincert.com/p/demo-for-test". Below the form is a light blue informational box with text: "Redirects your attendees to the URL specified here after the classroom session ends. API endpoint automatically posts parameters such as '&roomId=123&userId=456&userName=Teacher&isTeacher=1' as part of the redirect URL so you can do some post-processing at your end." A green "Save" button is located at the bottom of the form.

Step 1: Goto <https://www.braincert.com/app/bcrooms>

Step 2: Click Redirect URL from the menu --> Select the respective meeting room from the drop-down. It will auto populate along with the meeting room invite link which is shown in the above picture.

Step 3: Once the setting is done SAVE it.
